Noxious Weeds Must Be Controlled

You are required to control noxious weeds on your property.

The noxious weeds are: Musk Thistle, Plumeless Thistle, Canada Thistle, Leafy Spurge, Knapweed (spotted and diffuse), Purple Loosestrife, Saltcedar, Phragmites, Knotweed (Japanese and Giant), and Sericea Lespedeza. Notice is hereby given this 28th day of August., 2026, pursuant to the Noxious Weed Control Act, section 2-955, subsection 1 (a) to every person who owns or controls land in Cedar County, Nebraska, that noxious weeds being grown, or growing on, such land shall be controlled at such frequency as to prevent establishment, provide eradication, or reduce further propagation or dissemination of such weeds.

Upon failure to observe this notice, the county weed superintendent is required to:

1. Proceed pursuant to the law and issue legal notice to the landowner of property infested with noxious weeds giving such landowner 15 days to control the noxious weed infestation. Conviction for noncompliance may result in a \$100 day fine to the landowner with a maximum fine of \$1,500; or

2. Should more immediate control be required, proceed pursuant to the law and have the weeds controlled by such method as he/she finds necessary, the expense of which shall constitute a lien and be entered as a tax against the land, and be collected as other real estate taxes are collected, or by other means as provided by law.

Also, the public is notified that noxious weed seed and propagative parts may be disseminated through the movement of machinery and equipment, trucks, grain and seed, hay, straw, nursery stock, fencing materials, sod, manure, and soil as well as articles of similar nature. Methods of treatment have been prescribed by the Director of Agriculture and may be obtained from the county weed control authority.

By Order of Cedar County Weed Control Authority.

Harvest Time is Approaching Let's Prevent Farm Accidents!

It's easy to forget about overhead power lines, but tall farm machinery, irrigation pipes or ladders can come in contact with overhead power lines. Remember to look up before moving any farm equipment. If power lines are in the way, contact your local power supplier for assistance. This year when working with soil, remember to keep an eye toward the sky. Let's make this a bountiful and safe farming season.

Manage for Better Safety. Take Time To Be Safe!

Corn is giving America
 more miles to the bushel.
 Ethanol-blended gasoline has a lot to offer.
 It's cleaner burning for less carbon monoxide
 emissions. It has higher octane for better
 performance. And ethanol is made from
 renewable resources such as corn for an
 energy alternative to fossil fuels. The next
 time you're filling up with an ethanol-
 blended gasoline, think about Nebraska's
 corn producers. They're growing the fuel of
 the future right here in Nebraska. CORN You
 just can't keep it down on the farm.

MIND THE FARM... SAFELY!

SEPTEMBER 20 -26

REMEMBER TO LOOK UP

WHEN WORKING NEAR POWER LINES

This season, before work on the farm reaches its peak, spend a little time locating all overhead power lines and electrical facilities. A quick look around could be a life saver.
